

Heart of Jacksonville African Violet Society

Sale Plant Pricing

On the front of the tag, print the plant name in large letters. In the upper right-hand corner, put the sale price with a dollar sign. Be sure to leave room on the bottom of the tag for the pic to hold it. On the back, put your exhibitor number, and initials. A white business card or card stock works best as it helps to have a firm piece of paper for inserting in the pic.

When the plants are sold, we will take the pics and tags out, so make sure your pots are labeled, also. There's nothing worse than coming home with your proud purchase, only to find no name on the pot!

It will be helpful if your sale plants are all priced and labeled before you bring them to the show. So beforehand, we will hand out as many pics as you think you may need. PLEASE bring back any that are unused, as they will be used next time.

Please do not hesitate to ask any questions or make suggestions regarding this system.
